

VENUE REQUIREMENTS

SUSURRUS

Fire Exit Limited / David Leddy

For any queries, please contact: admin@davidleddy.com.

The ideal venue would have:

- large enough size for a walk of 20-40 mins, probably a circular route, likely between 10-30 hectares (essential)
- 8 different locations that are each distinctly different in character (essential)
- a pre-existing map of the location must be available for us to adapt (essential)
- buildings (eg. glasshouses) that the audience can go inside (preferable)
- some areas that are populated and some areas that are quiet and secluded (preferable)

If you think you have a garden which doesn't quite fit these requirements and you would like to discuss this with us, please send us a Google Earth reference and we will check it out.
